

DEAR AFINA CUSTOMER:

We appreciate your purchase of the Afina Venetian Mirror.

When mounting your new mirror, you can either use the two eyelet hooks or the horizontal wire that is already mounted on the back of the mirror, your choice.

When cleaning your mirror, we recommend a mild cleanser applied first to a rag or paper towel. **Do not spray directly** onto the mirror.

We are confident your Afina mirror will reflect the quality and prestige that you wish to convey in your home or business environment.

Thank you for purchasing Afina products and please visit our new website to see other Afina products.
